Indiana

INNOVATIVE, ILLUMINATING SOLUTIONS TO INSPIRE

Above All Lighting

High-quality LED lighting fixtures that offer energy efficiency, durability, and superior illumination for indoor and outdoor applications.

Acclaim Lighting

Leading designer and supplier of innovative and advanced lighting solutions for commercial, residential, and exterior applications.

ALBEO

High-performance LED lighting fixtures for industrial and commercial applications, including warehouses, manufacturing facilities, and parking garages.

Aleddra

Patented Virapure® technology for healthier illumination and advanced Emergency Lighting for enhanced safety in offices, classrooms, and homes.

Altman Lighting

Designer and manufacturer of innovative and high-quality lighting fixtures for various theatrical, architectural, and themed entertainment applications.

Alva

LED lighting products for outdoor, indoor, and multifamily residential applications.

ALW

Architectural LED lighting fixtures that offer customized design options, superior performance, and energy efficiency for various indoor and outdoor applications.

Ascent Architectural Lighting

Targeted downlighting and accent light for architectural features or specific areas in the room.

Assurance Emergency Lighting

Reliable lighting solutions that ensure safety and security during power outages or emergency situations.

Atkore AFC Cable Systems

Electrical cables, conduits, and related products for various applications in the construction, industrial, and utility markets.

Auralyte

Magnetized lighting solutions to transform spaces with interchangeable shades.

Autani Building Controls

Designs, builds, and manufactures lighting, HVAC, and Internet of Things (IoT) sensor platforms for almost any size and type of facility.

Baulmann Leuchten

Develops and manufactures lighting concepts for hotels, restaurants and bars, cruise liners, offices, and shops, as well as retirement and care homes.

Beamever Lighting

Linear lighting supply solution specializes in tape and neon flex commercial buildings, hospitality, and brand retail stores.

Belfer Lighting

Custom high-quality wall sconces, theater marquee lighting, recessed indirect fixtures, and more.

Besa Lighting

Sophisticated decorative lighting fixtures designed to complement virtually all types of architecture.

Big Beam Emergency Lighting

High-quality emergency lighting systems and exit signs that offer reliable illumination and safety solutions for industrial, commercial, and institutional applications.

BL Lighting

Specification-grade architectural lighting with a focus on dynamic, high performance, and sustainable, fiber optic, linear lighting, LED systems, and controls.

Bodine

Award-winning factory and field-install products designed to meet life safety requirements in a broad range of applications.

BreezEV

Commercial quality electric vehicle chargers.

Brightline

Energy-efficient lighting fixtures for television broadcast-studio, videoconference, e-learning, and government applications.

Candela Commercial Lighting

Simple, user-friendly, and cost-effective solutions to source an entire lighting package.

Carl Stahl

Customized lighting solutions and services for various architectural, commercial, and hospitality applications, offering design flexibility, advanced technology, and aesthetic appeal.

Carmanah

Compliant solar and AC-powered systems for traffic safety.

C-Flex

Centered around the ability to combine a wide offering of Type-C lamps with multiple driver types, C-Flex has quality, energy-efficient lighting solutions.

CGF Design

Design and production of commercial, industrial, and decorative architectural lighting fixtures.

Cole Lighting

Premier lighting solutions for all needs, from steplites to custom lighting.

Craft Metal

Custom-crafted high-quality lighting that combines functionality with a distinctive style.

Current

Wide ranging LED lighting solutions for commercial, industrial, and outdoor applications.

Daintree

Wireless lighting control systems and energy management solutions for various commercial, industrial, and municipal applications, offering advanced technology, analytics, and energy savings.

Dunton House Decorative Lighting

Energy-efficient LED luminaires that blend seamlessly with various residential and commercial high-end styles.

ElectraMirror

Electric LED mirrors ideal for multifamily applications.

ETI

US-made illuminated handrails.

Evolve

Innovative and customizable lighting solutions for various commercial, hospitality, and residential applications, offering advanced technology, design flexibility, and energy efficiency.

Feelux Lighting

Low voltage, line voltage, FLXible, track and rail lighting products.

Fonroche Lighting America

Designer and manufacturer of high-performance solar-powered lighting solutions for various applications.

Glacier Architectural Lighting

Decorative exterior light poles and fixtures.

H.E. Williams

High-quality and sustainable lighting solutions for various commercial, educational, healthcare, and industrial applications.

InterAmerica Stage

Overhead rigging and specialized stage machinery to structural design and engineering for the entertainment industry.

Jademar Lighting

Energy-efficient LED lighting solutions for commercial, industrial, and municipal applications.

Ketra

High-quality, tunable LED lighting with natural variations in color temperature and intensity to mimic the changing patterns of natural light.

Legion Lighting

Designs and manufactures energy-efficient lighting fixtures for a wide range of commercial, industrial, and institutional applications.

Light Efficient Design

Premier source for energy-smart LED solutions and a leader in retrofit technology.

LightGrid

Wireless outdoor lighting system that provides tailored solutions from parking lots to lighting roadways of entire cities that deliver energy and maintenance savings.

Life Safety Lighting

Full range of life safety lighting and commercial/industrial LED fixtures.

LightSweep

Wireless lighting control system that enables remote and automated control of lighting in commercial and industrial buildings for energy savings and improved efficiency.

Lotus LED Lights

A leader in super slim recessed LED lighting.

Lucifer Lighting

High-end, energy-efficient lighting fixtures for residential and commercial applications, with a focus on architectural integration.

Lumecon

Innovative and energy-efficient LED lighting solutions for outdoor, commercial, and industrial applications.

Lumentender

The Lumentender Cloud-based Platform is a powerful, subscription-based solution to remotely schedule, take live control and create custom scenes for single or multi-site commercial-scale lighting systems.

Lumination

Energy-efficient lighting solutions for various commercial, industrial, and institutional applications.

Lutron

Innovative lighting and shading solutions for residential and commercial applications, including wireless control systems and automated shading technologies.

Lynx Linear Lighting

Flexible ribbon and tape lighting for use in cove and perimeter lighting, stairs, walkways, channel letters, and decorative signage.

Lyte Poles

Specializes in designing and manufacturing high-quality, durable, and customizable lighting poles and structures for commercial and municipal applications.

Makers Sales

Crafts custom light, utility, and sports poles in the US.

MaxiLED Lighting

Data over power technology to do controllable light.

Metalumen

Designs and manufactures high-quality, energy-efficient lighting fixtures for commercial, industrial, and institutional applications.

Pariah Lighting

Offers top-tier solid-state LED solutions, ushering in a new era of excellence in commercial lighting.

Peacock Fan Company

Variety of residential and commercial ceiling fans.

PLP Composites

Designs and manufactures composite lighting poles and structures for various commercial, industrial, and municipal applications.

Point Lighting

Designs and manufactures energy-efficient and customizable LED lighting solutions for commercial and industrial applications.

RSL

Roberts Step-Lite provides premium LED lighting solutions for residential and commercial spaces with an emphasis on innovative designs and energy efficiency.

Sage Brands

Best value lighting solutions for a wide variety of project types including multi-family, hospitality, commercial, industrial, and residential.

Scout Lighting

Award-winning LED fixture designs that are sustainably developed for lighting design applications.

SENSORWORX

Offers high-quality and reliable lighting control solutions for commercial and industrial buildings, focusing on energy efficiency and advanced sensor technology.

SGM Lighting

A leader in innovative and high-performance lighting solutions for the entertainment industry, specializing in advanced LED technology and outdoor lighting.

Sigmalux Commercial Lighting

Commercial decorative and architectural LED lighting fixtures. US-made.

Snowball Lighting

Wide range of commercial and architectural products for various applications with a quick turnaround.

Solavanti Lighting

Provides customized LED lighting solutions for commercial and industrial applications, focusing on energy efficiency and sustainability.

Solera

Professional-grade, configurable, solar-powered lighting system and Off-Grid for lighting where line voltage is not available or cost prohibitive.

SPJ Lighting

High-quality outdoor lighting fixtures that combine advanced technology, sustainable materials, and elegant design for residential and commercial applications.

Synapse Wireless

End-to-end wireless networked control system that helps cut energy costs, boost facility performance, and scale with ease.

Terrain Site Lighting

Outdoor high-powered LED lighting options for parking lots, roadway lighting, pedestrian-scale bollards, and architectural wall packs.

The Light Source

Innovative lighting hardware solutions for entertainment, architectural, and industrial applications, with a focus on durability, versatility, and ease of use.

Tweener

LED Court Lighting designed specifically for tennis and pickleball courts.

Ubicquia

Wireless networking solutions for the Internet of Things (IoT) market, enabling seamless connectivity and secure communication between devices and applications.

Vari-Lite

Leading designer and manufacturer of intelligent lighting fixtures for the entertainment industry, offering advanced technology, flexibility, and customization options for creative lighting design.

Vista

High-quality and energy-efficient architectural and landscape lighting solutions that combine advanced LED technology with sleek and modern design aesthetics.

VividAir

High-volume, low-speed (HVLS) fans.

Vyv

Antimicrobial lighting technology that is UV-free and chemical-free.

X-LED

Advanced LED lighting solutions for microscopy, fluorescence analysis, and other scientific and medical applications, with a focus on high-quality optics and precision engineering.
