OEM SOLUTIONS FOR PRESSURE, LEVEL, TEMPERATURE, FLOW, CONTROL, CONTAINMENT

- Solenoid Valves
- Air Operated Valves
- Combustion Products

- PC Board Mounted, MEMs Piezo Resistive Pressure Sensors and Pressure Transducers

- Pressure Sensors & Transducers
- Level Transducers
- Temperature Transmitters

- Liquid Filled Pressure Gages
- Industrial Pressure Gages
- Pressure Transducers

- Air Flow Switches
- Combustion Gas Switches
- Temperature Indicators

- OEM Ultra Sensitive Pressure, Vacuum, Differential Switches

- Rugged Low Pressure, Vacuum, Differential Switches
- High Pressure Switches

- Aerospace Grade Pressure, Vacuum, Differential Switches

- Power Relays & Sockets
- PC Board Relays

- Time Delay Relays
- Counters

- Industrial Timers
- Counters
- Power Relays & Time Delay Relays

- Current/Voltage/Phase Monitors
- Pump / Level Controls

- Fittings-Brass/Composite/Thermoplastic
- Ball Valves / Needle Valves
- Drain Cocks / Ground Plug Shutoffs

- Level Float Controls
- Level Transmitters

- Compressors
- Vacuum Pumps
- Liquid Pumps

- Centrifugal Pumps
- Diaphragm Pumps / Compressors
- Gear Pumps

- Thermocouples / RTDs / Thermistors
- Temperature Transmitters
- Thermowells

- Bimetallic Disc Thermostats
- Auto Reset, Manual Reset, Single Operation

- Paddle & Piston Flow Switches
- Flow Meters

- Solenoid Valves
- Air Accessories

- Air Preparation
- Valves
- Manifolds

- Grommets, Bushings, Mounts, Extrusions, Vacuum Cups, Seals, Plugs, Gaskets, Die-Cuts

- Vibration/Shock/Motion Isolators
- Noise Control Isolators

- Wire Harness/Cable Assemblies
- Electro/Mechanical Assemblies

- Solenoid/Sensor Electrical Connectors
- Timers & Suppressors
- Cylinder Proximity Sensors

- Pressure / Vacuum Relief Vents
- Air Flow Solutions for Emission Controls
- Lubrication Devices For Machinery

Manufacturer's Representative

www.CMBUCK.com

Lighting Division

Good lighting must be application specific. To that end, we offer solutions that will direct attention or movement, provide efficiencies of design and control, and enhance the architectural strengths of your project.

Theatrical Division

Associated Controls + Design provides design, specification, installation, consultation and service of lighting, dimming, rigging and drapery systems for new construction or renovation of theatres, schools, churches, restaurants/clubs, museums and other specialized architecture.

Power Division

Dependable Electric power is absolutely essential to the operation of electronic systems that touch our lives. There are several potential alternatives for avoiding the consequences of power-related problems. We represent what we think are some very innovative and cost-effective solutions for almost any problem.

OEM Division

Our OEM customers are continually looking for ways to improve the products they design and manufacture. They rely on us to provide problem-solving support through the power of imagination, innovation and technical skills that drive solutions with products that bring efficiency and reliability at the best total cost.
