Fort Wayne ● Indianapolis ● Louisville

---

**DEPENDABLE POWER YOU CAN COUNT ON.  
WHEN IT MATTERS MOST.**

---

# Starline®

A brand of  **legrand**

- Custom-built, overhead electrical distribution systems
- Systems rated for 40 A up to 1200 A
- Single or Three Phase systems rated up to 600VAC
- Modular design gives ability to move, add, or change floor plans quickly and easily without downtime to facilities

# ASCO

- Automatic (ATS) and manual (MTS) transfer switch
- Open, delayed, and closed transition
- Bypass isolation to eliminate maintenance outages
- Service entrance rated from 150A to 4000A available
- Power control systems and paralleling systems
- Custom lighting control panels & general purpose contactors
- Surge protective devices from 25 kA/Phase to 1000 kA/Phase
- Low and medium voltage load banks from Avtron

# Schneider

**Electric**

Advanced Solutions Partner

- Three phase UPS solutions from 20 kVA to 1,600 kVA
- NetShelter IT aisle containment
- PDU, RPP, and rack power distribution solution
- Critical cooling systems – InRow, room, and ceiling mounted
- EcoStruxure facility monitoring, modeling, planning, & operations software

# APC™

by **Schneider Electric**

- IT infrastructure solutions for facility needs of any size
- Rack power distribution units for IT cabinets
- Single phase UPS solutions from 500 VA to 20 kVA
- NetBotz security and environmental monitoring
- Symmetra modular UPS systems from 2 kVA to 20 kVA

DRIVEN BY MOTION

- Industry leading Large UPS Systems for Data Centers, Healthcare and other critical power systems
- Battery or Flywheel single module UPS up to 3MVA with UPS systems with or without Diesel Engines
- True Rotary / Motor Generator design

# PILLER

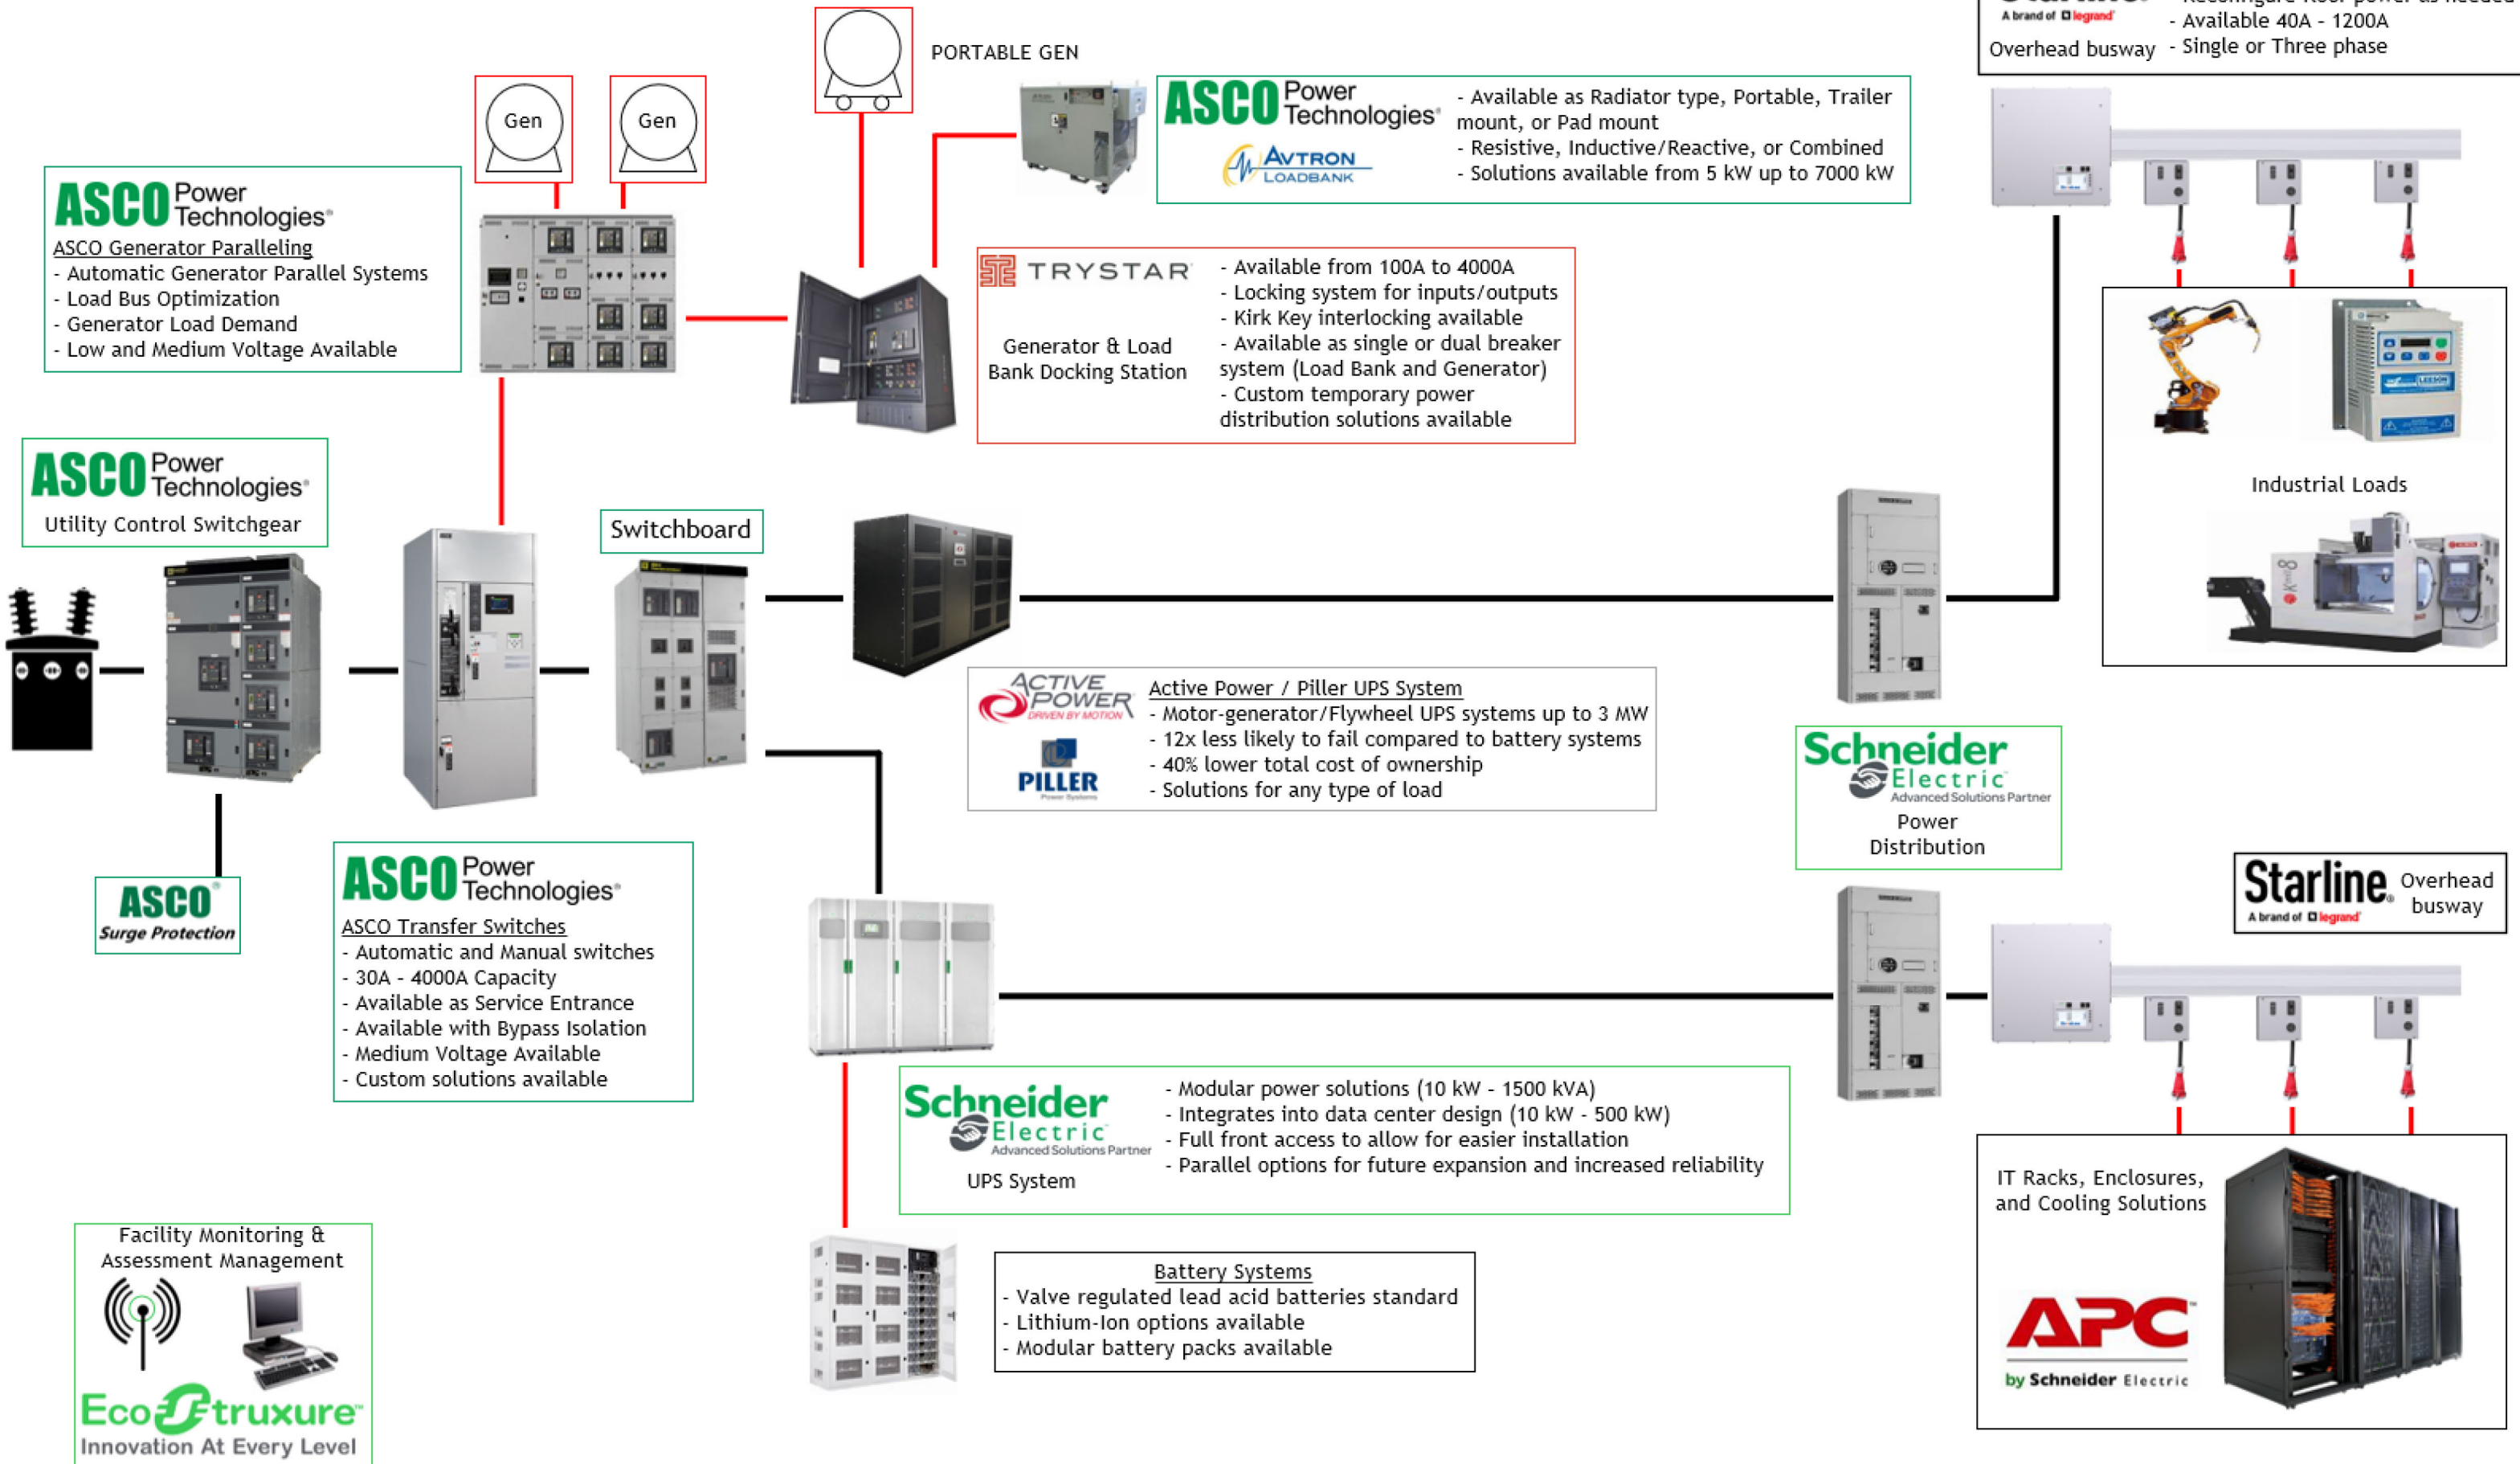

Power Systems

- High capacity rotary UPS, hybrid UPS, diesel UPS, static UPS and static transfer switches
- Kinetic energy storage and battery storage options
- Flexibility to configure a vast range of power protection, switching and conversion products into solutions

# TRYPSTAR

- Provides fast and easy connection of temporary power
- NEC 700.3 compliance solutions
- Single and dual breaker docking stations for simplified load bank and/or temporary generator connection
- Load bank connection points for testing of facility power systems
- Custom temporary power distribution solutions available

**ASCO Power Technologies®**  
**ASCO Generator Paralleling**  
 - Automatic Generator Parallel Systems  
 - Load Bus Optimization  
 - Generator Load Demand  
 - Low and Medium Voltage Available

**ASCO Power Technologies®**  
**Utility Control Switchgear**

**ASCO®**  
**Surge Protection**

**ASCO Power Technologies®**  
**ASCO Transfer Switches**  
 - Automatic and Manual switches  
 - 30A - 4000A Capacity  
 - Available as Service Entrance  
 - Available with Bypass Isolation  
 - Medium Voltage Available  
 - Custom solutions available

Facility Monitoring & Assessment Management  
  
**EcoStruxure™**  
 Innovation At Every Level

**PORTABLE GEN**

**ASCO Power Technologies®**  
  
 - Available as Radiator type, Portable, Trailer mount, or Pad mount  
 - Resistive, Inductive/Reactive, or Combined  
 - Solutions available from 5 kW up to 7000 kW

**TRYSSTAR**  
**Generator & Load Bank Docking Station**  
 - Available from 100A to 4000A  
 - Locking system for inputs/outputs  
 - Kirk Key interlocking available  
 - Available as single or dual breaker system (Load Bank and Generator)  
 - Custom temporary power distribution solutions available

**ACTIVE POWER / PILLER UPS System**  
  
 - Motor-generator/Flywheel UPS systems up to 3 MW  
 - 12x less likely to fail compared to battery systems  
 - 40% lower total cost of ownership  
 - Solutions for any type of load

**Schneider Electric**  
 Advanced Solutions Partner  
**UPS System**  
 - Modular power solutions (10 kW - 1500 kVA)  
 - Integrates into data center design (10 kW - 500 kW)  
 - Full front access to allow for easier installation  
 - Parallel options for future expansion and increased reliability

**Battery Systems**  
 - Valve regulated lead acid batteries standard  
 - Lithium-Ion options available  
 - Modular battery packs available

**Starline**  
 A brand of Legrand  
 - Customizable power solutions  
 - Reconfigure floor power as needed  
 - Available 40A - 1200A  
 Overhead busway - Single or Three phase

**Schneider Electric**
