

CMBUCKPOWER

Delivering Results Through Experience.

Electrical energy must be harnessed for everyday use. It must be controlled and contingencies must be put in place to keep your critical systems up and online. We have the experience and knowledge to assist in the design, build, and maintenance your critical electrical systems. We don't just sell emergency power and reliable power distribution systems, we live with and support them everyday.

We Are Your Single Source Provider For:

Automatic Transfer Switches	UPS / Battery Back Up Systems
Generator Paralleling Systems	UPS Service / Battery Testing
Surge Protection Systems	Power Distribution Busway
Portable Generator Connections	Emergency Power Systems
Power Factor Correction	Harmonic Filters
Generator Bi-Fuel Systems	Load Bank / Testing Solutions
Line Isolation Monitors	Rack Power Solutions
